

Foliar Supreme™
S720™

Plant Health Promoter

ANALYSES: (0-16-10 WITH 32% S; 51% S)

WHAT IS IT?

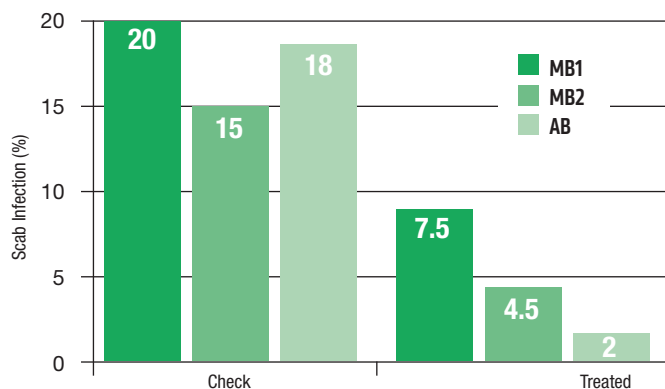

- Foliar Supreme™ is a highly concentrated suspension containing Phosphorus, Potassium and Sulfur.
- Foliar Supreme™ is designed for maximum foliar uptake and utilization.
- It is safe for application onto the foliage even when temperatures are high and the relative humidity is low.
- S720™ contains 51% Sulfur in a highly available form.
- The product is available in 10 L jugs, 450 L and 1000 L IBC's.

WHEN & WHY USE IT?

- For regular use on a variety of crops (i.e., pulses, cucumbers, melons, lettuce, ...) will optimize fruit quality and general plant health.
- Use to supply phosphorus, potassium and sulfur and prevent or correct deficiencies of these elements.
- Use on oilseed as sulfur is a major component of the oil.
- Use on cereals as sulfur impacts the milling qualities and the physico-chemical properties of the dough.
- Sulfur is a natural fungicide and prevents or reduces infections by biotrophic fungi such mildews.

WHAT TO EXPECT?

- Better quality and healthier crop.
- Higher oil content.
- Better milling quality and improved properties of the flour and dough.

Application Guidelines

- Apply Foliar Supreme™ or S720™ at 1-2 L/ ac in a spraying volume of 5-10 US gal of water.
- Repeat as necessary
- Can be combined with other fertilizers and pesticides (see compatibility charts)
- A jar test is recommended
