

K Kicker™

Kick Up the Yield Potential in Your Crop

ANALYSIS (12-6-24 + MICROS)

WHAT IS IT?

- High-quality suspension of NPK with a guaranteed analysis of 12-6-24 and an essential micro-package.
- Low salt index liquid foliar fertilizer.
- Excellent source of potassium among others.
- The product is available in 10 L jugs, 450 L and 1000 L IBC's.

WHEN & WHY USE IT?

- K Kicker™ improves N uptake under poor conditions i.e., cool/wet sandy soils, saturated heavy soils, shallow roots or at later stages in the season.
- K Kicker™ is highly recommended on light, sandy soil, organic soils, soils with excessive levels of Mg or Ca and K fixing soils.

WHAT TO EXPECT?

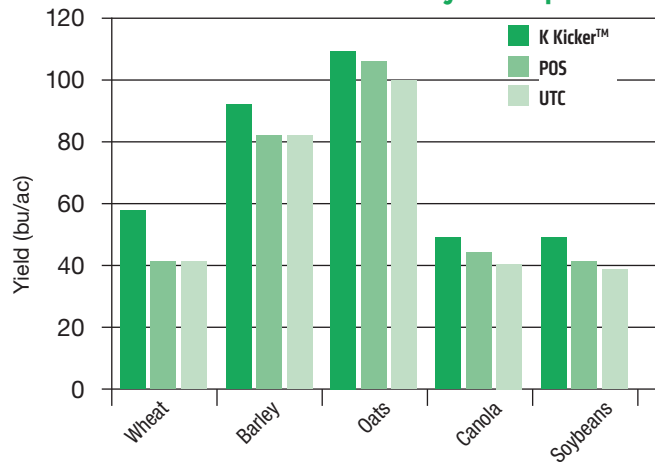

- K Kicker™ reduces the effect of early season stress and provides the additional Nitrogen needed at the peak of demand.
- Foliar application of K Kicker™ keeps the crop greener longer, optimizing photosynthesis and nutrient uptake.
- The high level of Potassium in K Kicker™ keeps water use efficiency at its highest, which translates into an optimal translocation of carbohydrate and nutrients to the sink and a yield advantage.

Application Guidelines

- Apply K Kicker™ at 1-2 L/ac in a spraying volume of 5-10 US gal of water.
- Can be combined with other fertilizer mixes and pesticides (see compatibility charts).
- K Kicker™ is suitable for all major field and horticultural crops and vegetables. These include cereals (wheat, barley, oats, corn), oilseeds (canola, mustard, flax), pulses (peas, chickpea, lentils, beans), tuber and root crops.
