

**Muscle Up™**

# The Protein Power Shake for Your Crop

ANALYSIS (15-9-5 + MICROS)

## WHAT IS IT?

- Highly concentrated liquid suspension with an analysis of 15-9-5 with a full micro-package.
- Muscle Up™ is formulated with a high percentage of Nitrogen to ensure proper structure and functioning of chlorophyll, nucleic acids (DNA, RNA), and proteins.
- Muscle Up™ contains a customized micronutrients package that fits the needs of crops at their early stages of growth and development
- The product is available in 10 L jugs, 450 L and 1000 L IBC's.

## WHEN & WHY USE IT?

- Use on crop challenged for nitrogen uptake under poor conditions i.e., wet sandy soils, saturated heavy soils, shallow roots or at later stages in the season.
- Muscle Up™ increases the greenness of the crop, which translates into an optimal photosynthesis and assimilation of nutrients.
- Muscle Up™ promotes yield and quality.

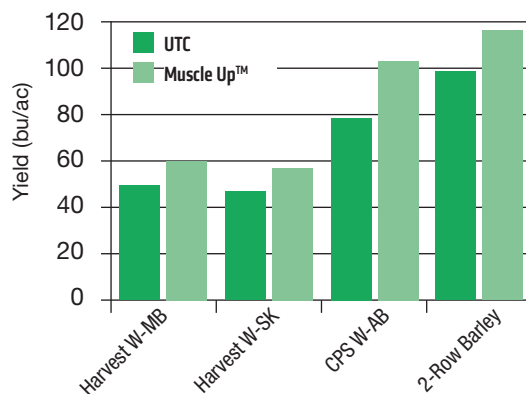

## WHAT TO EXPECT?

- Faster correction of deficiencies related to macro, secondary and micro nutrients.
- Strong and vigorous plants.
- Improved yield and quality under normal conditions.
- A better yield preservation under stress conditions.

## Application Guidelines

- Apply Muscle Up™ at 2 L/ac in a spraying volume of 5-10 US gal of water.
- Can be combined with other fertilizer mixes and pesticides (see compatibility charts).
- Additional chelated micronutrients can be included as required.
- Muscle Up™ is suitable to all major field and horticultural crops and vegetables. These include cereals (wheat, barley, oats, corn), oilseeds (canola, mustard, flax), pulses (peas, chickpea, lentils, beans), tuber and root crops.
